

UDHAY CHOWDHURY

Chattogram, Bangladesh | chowdhuryudhay02@gmail.com | [LinkedIn](#) | [Portfolio](#)

PROFILE

Final-year STEM student (EEE, CUET) with hands-on exposure to industrial operations through a Siemens job simulation (time studies, layout optimisation) and a strong track record of leading cross-functional teams, planning large-scale events, and delivering measurable results under pressure. Relaunched a 4-year-dormant campus programme, managed operations for 100+ participants, and drove a 55% membership growth in a student organisation. Proven ability to prioritise competing deadlines, collaborate across diverse teams, and take real ownership of outcomes. Eager to contribute to BAT's operational excellence initiatives and grow within a global, multi-category business.

EDUCATION

BSc in Electrical & Electronic Engineering

Expected July 2026

Chittagong University of Engineering & Technology (CUET), Bangladesh
CGPA: 3.65 / 4.00 (up to 7th Semester)

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

Head of Department – Hult Prize at CUET

Jan 2025 – Present

World's Largest Student Social Entrepreneurship Competition / CUET Campus Round

- Revived the Hult Prize On-Campus Programme after a **4-year hiatus** — identified gaps, built the team from scratch, and delivered the full event cycle within timeline and budget.
- Directed end-to-end operations for **100+ participants**: resource allocation, judge coordination, venue logistics, marketing, and real-time troubleshooting on event day.
- Led a **cross-functional team** spanning marketing, design, and operations; delegated tasks, tracked progress, and held each vertical accountable to shared goals.
- Outcome: Recognised with the **Best Organising Committee Award (Feb 2025)** — the highest team-level recognition at the event.

Membership Development Coordinator – IEEE CUET Student Branch

Oct 2024 – Present

IEEE Student Member / Bangladesh Section / Member #99931016

- Designed and executed a **structured recruitment campaign** from planning to rollout — segmented outreach, targeted messaging, and follow-up coordination across departments.
- Delivered **400+ new members** in a single cycle — the **highest membership count in chapter history**, representing a **55% year-on-year increase**.
- Coordinated with IEEE Bangladesh Section leadership to align local activities with regional strategic objectives.

Secretary of Graphics & Illustration – Hult Prize at CUET

Nov 2023 – Jan 2025

- Managed all visual branding for organisational campaigns — produced **50+ assets** (posters, banners, digital content) while maintaining brand consistency under tight deadlines.
- Collaborated cross-functionally with the social media and communications teams for cohesive multi-platform outreach.

Supervisor – Research Camp 2, CUET

Nov 2024

- Mentored junior students in research methodology and scientific thinking — developing coaching, communication, and people management skills in a structured academic setting.

Member – CUET Career Club

Jan 2023 – Present

Participated in career development workshops, professional networking events, and skill-building initiatives for student advancement.

PROFESSIONAL EXPERIENCE

Operations Industrial Engineer Job Simulation – Siemens (via Forage)

Jun 2025

- Completed a hands-on simulation of real-world industrial engineering tasks in a global manufacturing context.
- Conducted **time studies** to analyse and measure operational efficiency on a simulated production floor, identifying process bottlenecks and idle-time patterns.
- Proposed **layout changes** to optimise workflow, reduce waste, and improve process reliability — applying core operational excellence principles used in FMCG manufacturing environments.

Industrial Attachment – Bangladesh Telecommunications Company Limited (BTCL)

Jun 2025

- Completed a 2-week attachment observing large-scale infrastructure operations: network maintenance workflows,

operational coordination, and service delivery protocols in a national-level organisation.

- Gained first-hand exposure to how technical and operational functions collaborate in an industrial setting.

ACHIEVEMENTS & AWARDS

- **2nd Runner-Up – Face the Case 3.0** (Team Tetris) *May 2023*
Out of **301 competing teams**, reached the final 16 by developing a market-entry and operations strategy for Electric Vehicle adoption in Bangladesh — demonstrating structured business thinking, data-driven analysis, and confident presentation under pressure. **Prize: BDT 10,000.**
- **1st Runner-Up – Discussion with the Changemaker** (CUET Trailblazers) *Sep 2023*
Proposed a practical, systems-level engineering solution to Chattogram’s chronic urban waterlogging crisis; evaluated for analytical depth, feasibility, and communication clarity. **Prize: BDT 30,000.**
- **Best Organising Committee Team – Hult Prize at CUET 2025** *Feb 2025*
Team-level recognition for operational excellence and leadership during the campus round.
- **IEEE R10 Ethics Champion** – R10 Ethics Super Power Challenge *Oct 2024*
Scored 70%+ in a competitive ethics assessment; recognised for integrity and professional standards in engineering practice.
- **Honourable Mention – IEEE Day Poster Presentation** (Team Induction Motor) *Oct 2023*

SKILLS

Operations & Planning: Project coordination, event management, cross-functional team leadership, deadline management

Business & Analysis: Data interpretation, strategic planning, case analysis (MS Excel, Power BI, Tableau – beginner)

Communication & Design: Professional presentations (PowerPoint), report writing, visual branding (Adobe Suite)

Collaboration Tools: MS Office Suite, Google Workspace

Languages: Bengali (Native), English (Proficient), German (Currently Learning)

CERTIFICATIONS

- Operations Industrial Engineer Job Simulation – Siemens via Forage Jun 2025
- Supervised Machine Learning: Regression and Classification – Coursera / Stanford University Sep 2024
